

The Flood Season is Upon Us:

Submitted by Lisa Schwartz, Emergency Coordinator

Information is available. Sign up to Volunteer! For information on flood control and preparedness, go to www.pweng.slco.org/flood. In anticipation of flooding along the streams and river, the City of Taylorsville Emergency Management and the Salt Lake County Community Services would like to ask for your support by signing up as a volunteer. Efforts are underway to pre-credential volunteers prior to their activation to minimize processing waiting time on-site. Only basic information is requested and badges will be issued. Volunteers will be required to bring their badges when they are activated by a call-out, or by requests issued by the media on behalf of Salt Lake County Emergency Management.

To sign up to become a volunteer, please contact Lisa Schwartz at 801-955-2092, or email Lisa at lschwartz@taylorsvilleut.gov.
