# Statement of Qualifications

---

Matt Dill

Hello, my name is Matt Dill and I have been a resident of Taylorsville for the past 12 years. As the owner/operator of a small business in a neighboring city, I am very much involved with local government and community organizations. I have served on the Board of Directors of the West Jordan Chamber of Commerce and am currently serving as the board Chair. This has given me the chance to work closely with city leaders in developing and planning economic growth, as well as giving me an inside view of the workings of local government. My colleagues on the Board often refer to me as the "voice of practicality and reason" due to my ability to analyze objectively and with my business management experience I am able to quickly understand what physically and fiscally can be done. I would like an opportunity to serve in the city where I actually live and spend most of my free time and I feel that I would be an asset to the city of Taylorsville in guiding and shaping our future. Thank you for your consideration.

# Vision for the City of Taylorsville

Matt Dill

Twelve years ago, after living my entire life in the Millcreek/Holladay area, I decided I needed to relocate closer to work. Although there were closer options, I chose to move to Taylorsville because I liked the friendliness and close-knit community feeling of the residents here. Having lived most of my life in unincorporated areas, I was intrigued by the idea of living in a place where there was a local governing entity that fostered a sense of community cohesion and pride. Taylorsville's government offered accessibility and cooperation with residents that you would expect in a smaller town, but with the convenience of living in a large city. As our city population grows, so do the expenses and increased revenues required to continue to provide the same level of service to our residents. I would like to see Taylorsville find ways to attract revenue providing businesses to the city without compromising the residents' way of life. We should continue to work toward developing a community that has the infrastructure that bolsters our tax base, without sacrificing the comforts and conveniences of our residents. I envision a Taylorsville where residents can have shopping, dining, and entertainment options in their own community without leaving the city, while continuing to have the freedom to live the superior quality of lifestyles that Taylorsville residents currently enjoy.
