QUALIFICATIONS (Attach a statement of up to 200 words):

The Citizens have reduced their spending in these tough economic times. It is time the leaders of this great city follow this example of common sense. We need to stop pet projects and focus only on the projects that benefit the residents and businesses of Taylorsville.

The position of Mayor is not a position of authority. It is a position of service. I believe we have lost sight of that. The government was created for the people. I feel it is time to start listening to their voice.
