

MAYOR'S MESSAGE

Dear Friends and Neighbors,

We will be a part of a very important process this month that only comes about once in a decade. Yes, the 2020 Census is here and I can't stress enough how important it is that everyone in our community participate.

Mayor Kristie S. Overson

The U.S. Constitution requires a count, once every 10 years, of everyone living in the country. The count must include people of all ages, races and ethnic groups — citizens and non-citizens alike. The Census count officially gets underway on March 12 when invitations to respond are sent out, and every household should complete a census form (either online, by mail or phone) by April 1.

Not only is the census central to our democracy but having an accurate population count is critical for understanding and meeting our community's needs. Utah receives about \$5.7 billion a year in federal funding, or about \$1,870 per Utah resident. This funds key programs in our own Taylorsville community, including road construction, health and housing services, educational programs and emergency planning (see accompanying story for details).

I know that some people might be hesitant to provide their information but there is assurance in federal law itself, which mandates that all information collected by the Census must remain private and can be used only for data-collection purposes. The Census will never ask for your Social Security number, money or donations, anything on behalf of a political party or your bank or credit card numbers. Census workers will have official credentials and conduct their work between 9 a.m. to 9 p.m.

I know this because I was a census worker myself 10 years ago. I signed up as an enumerator for the 2010 Census because the work sounded intriguing and I thought it would offer an opportunity to connect with my community and neighbors, which it did! It sounded like fun and a good way to make a little extra money.

I ended up working for about six months and I knocked on about 1,000 doors. For me, it provided the chance I was looking for to get to know our neighborhoods better, and I gained even greater insight into the importance of community.

The Census will be a little different this year because it is the first time you can respond online or by phone, in addition to the option to answer on a paper form as with previous censuses. Whichever way is easiest for you, please be sure to respond. Not only is participation legally required, but it truly does bring tangible benefits to our state, even our own community.

—Mayor Kristie S. Overson

WHAT'S INSIDE – MARCH 2020

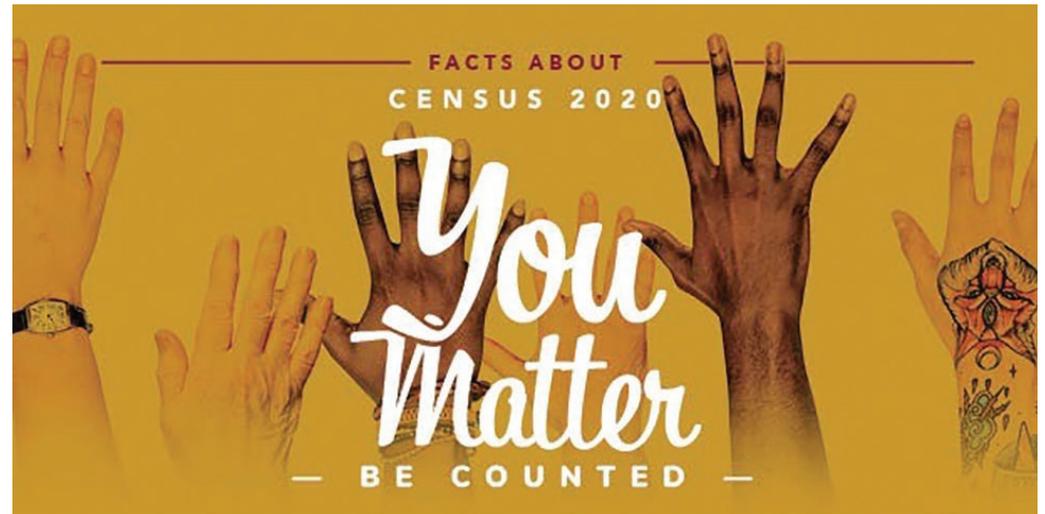

Frequently Called Numbers, *Page 2*

Council Corner, *Page 3*

Heritage Remembrances, *Page 7*

Environment, *Page 8*

You Count: Be Sure to Participate in the 2020 Census

The 2020 Census officially gets under way this month. Invitations to respond to the Census will be sent out between March 12-20, with a reminder letter following up between March 16-24.

Getting an accurate or complete census count is very important. Census data will guide decisions on how billions of dollars annually are distributed to support education, nutrition, social and workforce services for the next decade. The information will also help determine where to build homes and parks, establish new routes for public transit, build roads, prepare for emergencies, and assist businesses in determining where to locate and what types of products and services to provide.

Census data also determine the number of U.S. representatives each state sends to Congress and are used to set district boundaries at the state, county and city levels.

If no response has been received after March 24, a reminder postcard will be sent March 26-April 3, with a reminder letter and paper questionnaire following between April 8-16. A final reminder postcard will be sent between April 20-27 before in-person follow-ups.

Residents of Salt Lake County and Utah benefit from nearly \$5.7 billion in federal funds distributed each year to our state and local governments using information from the U.S. Census. A less-than-accurate Census count could deprive Salt Lake County communities of needed funding to address challenges of growth, affordability and opportunity.

Find more information about the Census on the city's website at taylorsvilleut.gov; the county's website at slco.org/regional-development/census-2020 or the Census Bureau at www.census.gov

Taylorsville Dayzz Applications are Now Available

Taylorsville Dayzz 2020 is set for June 25, 26, 27, and organizers and volunteers have already begun planning for this summer's event at Valley Regional Park, 5135 S. 2700 West.

This year's Taylorsville Dayzz Parade, for instance, has been scheduled for Saturday, June 27 at 9 a.m. Applications for it and other events can all be found online at www.taylorsvilleut.gov/our-city/taylorsville-dayzz. Among them, look for:

- The Taylorsville Dayzz Parade application and parade route. The application for parade entries is due June 7.
- The application to participate as a performer at Taylorsville Dayzz also is now available. It is due April 10. Performances will be scheduled on the east stage on Thursday, June 25, and Friday, June 26, and both the east stage and main stage will be scheduled for Saturday, June 27.
- The exhibit application is online, too. Deadline for submission of exhibit applications is June 1. But organizers have been processing applications as of Feb. 1 and booth space is limited so submit your application asap.
- Food vendors can also now apply. Deadline for submission for food vendor applications in June 1. But organizers have been processing applications as of Feb. 1 for food vendors, as well, and booth space is limited so submit your application asap.
- Information about the T-shirt Design Contest for the 2020 Taylorsville Dayzz 5K. The winner will receive \$50 and a free T-shirt with your winning design. Send submissions to jandrus@taylorsvilleut.gov. They're due April 25.

It will definitely be another fun Taylorsville Dayzz, and we can't wait!

Find out More About Neighborhood Watch

Would you like to improve the safety of your neighborhood? How about getting better connected with the people who live around you?

Neighborhood Watch can help make that happen. Taylorsville City and the Unified Police Department are ready to answer your questions and help get you and your neighbors started.

Contact Officer Kyle Andrew at kandrew@updsl.org for more information or to set up your first neighborhood meeting.

COUNCIL CORNER

By Council Member Curt Cochran

March in Utah usually means that spring is not far behind. Increased outdoor time including hiking, golfing and fishing are just some of the things I look forward to this time of year. Yard work ... not so much.

One thing about March that many do not know is that it is National Women's History month. There are many women in U.S. history who helped shape our country, our lifestyles or the way we think. While it would not be possible to mention them all in this article, there are some who stand out to me.

1. Sacajawea – A Shoshone women who was the guide and interpreter for the famous Lewis and Clark Expedition in 1805 and 1806.
2. Betsy Ross – At the request of General George Washington, sewed the first United States flag.
3. Harriet Beecher Stowe – Famous for her controversial novel, Uncle Tom's Cabin, an antislavery story based on her experiences. Also spoke against slavery.
4. Elizabeth Cady Stanton and Susan B. Anthony – Fought for women's suffrage when the 14th and 15th amendments excluded gender equality.
5. Harriet Tubman – A "conductor" on the Underground Railroad, she led more than 300 slaves to freedom.
6. Clara Barton – Organized and delivered important aid to Union and Confederate soldiers. Started the American Red Cross.
7. Helen Keller – Deafened and blinded by a childhood disease, she overcame her disabilities, then worked for the blind and numerous progressive causes.
8. Eleanor Roosevelt – Enormously effective wife of FDR, she worked for racial equality and was a U.S. representative to the United Nations.

Recognizing the Many Women who Shaped History

9. Amelia Earhart – Famous for flying across the Atlantic and Pacific oceans. She attempted to fly around the world, then disappeared July 2, 1937.
10. Rosa Parks – Her refusal to give up her seat on a segregated bus in Montgomery, Ala., on Dec. 1, 1955, sparked the modern civil rights movement.
11. Sandra Day O'Connor – She became the first woman justice on the U.S. Supreme Court.
12. Ruth Bador Ginsburg – First Jewish woman and currently one of three women on the Supreme Court. Strong advocate for women's rights and civil rights in general.
13. Condoleezza Rice – Appointed Secretary of State in 2005, becoming the highest-ranking woman in the United States presidential line of succession in history.
14. Hillary Rodham Clinton – Former first lady and first female presidential candidate for the Democratic Party.
15. Dr. Sally Ride – Celebrated as the first American woman and youngest American astronaut to travel into space.
16. Barbara Morgan and Christa McAuliffe – Morgan was the first successful teacher in space. McAuliffe was scheduled to be the first but was one of the crew of the ill-fated Challenger disaster in 1986.
17. Rosie the Riveter – Now I know that Rosie was not a real person, but she was the star of a campaign aimed at recruiting female workers for defense industries during World War II, and she became perhaps the most iconic image of working women.

That is an impressive list and by no means an all-inclusive one. I hope that there are names that you can

Left to right: Curt Cochran (District 2)
Ernest Burgess (District 1)
Dan Armstrong, (District 5)
Meredith Harker, Chair (District 4)
Brad Christopherson, Vice Chair (District 3)

think of that have special meaning to you. A bit closer to home, I would like to recognize former Mayor Janice Auger and current Mayor Kristie Overson. Mayor Auger, Taylorsville's first woman to be elected mayor, was the only woman on Taylorsville's original City Council before running for mayor, a position she held for two terms from 1998 to 2006. Mayor Overson previously served on the Taylorsville Planning Commission, City Council and is frequently at the state Capitol feverishly working to gain support for Taylorsville's overall improvement efforts. We thank them and the many other women throughout our history for their innumerable contributions.

Project Empathy Works to Help the Homeless

Chase Hansen and his mother, Torrie, attend the Taylorsville City Council meeting on Feb. 5.

Chase Hansen has dedicated the past six years of his life to lifting up people in Utah who are without a home. He founded the organization Project Empathy. He's garnered support from the headquarters of Applebee's restaurant. He recently appeared on the national television program Good Morning America to talk about his work. And, he's only 10 years old.

The young boy was barely taller than the podium in the chambers at Taylorsville City Hall, where he spoke this past month before the City Council about his cause. He's articulate and purposeful, precocious and passionate.

"I am a kid who just likes to support the community," he said. "With the homeless population in a pretty bad spot, I wanted to lift it up. We need to help them out. They're our friends and our family."

Chase explains that Project Empathy is an initiative that organizes one-to-one, sit-down meals with a homeless person and a non-homeless person. "They basically sit down and talk over the course of a meal for about 30 minutes to an hour."

He and his dad, John Hansen, started Project Empathy to help people make a connection through meals. "We thought if 20 people sat down with 20 people and had one-on-one

conversations, they can actually make a connection. They can find people they enjoy talking to, and keep talking. They can make a friend."

His father was sick at home when Chase made his presentation to the City Council on Feb. 5 but tuned into the city's live-stream of the meeting, commenting about how he couldn't be prouder of this son. "He's listening at home. Hi dad," Chase shouted out during the presentation. His mom Torrie, who attended the meeting with her son, said afterward that she's simply amazed at all that he has been able to do.

Project Empathy, Chase said, is all about human connection.

Chase wanted to speak to the Mayor and Council because "he kind of grew up" in Taylorsville, where his grandmother lives and he spends time with his cousins. He and his father also recently met with the manager of the Applebee's restaurant in Taylorsville after learning during their Jan. 23 appearance on Good Morning America that the chain had donated 100 meals to help. "They were ready for the call of action," Chase said, adding he hopes others will join, too.

Taylorsville Students Recognized for Top Card Designs

It's still Christmas for two Taylorsville elementary school students.

Maya Alfaro, a fifth-grade student at Plymouth Elementary, and Kody Nguyen, a fifth-grader at Fox Hills Elementary, were recognized by the City Council for their winning artwork selected for the Taylorsville UPD holiday cards this last season.

Unified Police Department Det. Kyle Andrew said

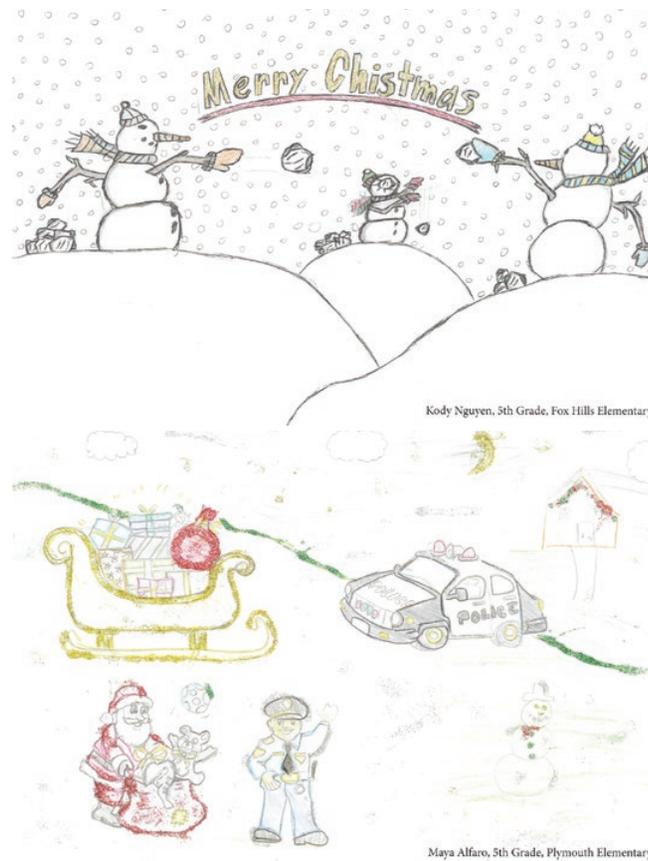

the annual Christmas Card Contest is held each year by the Taylorsville precinct. It involves all fifth-graders in Taylorsville area's nine elementary schools, or about 700 students. They design a card in their free time (it is not a required assignment) and then submit it for judging.

"They got really excited when we told them they would get to go out to lunch with the Mayor," Det. Andrew said. "That was the kicker."

The winning designs were placed on the front of the UPD-Taylorsville's 2019 holiday card and mailed to representatives across the city, as well as to the Governor's Mansion, Washington, D.C., and all UPD precincts. Mayor Kristie Overson and Police Chief Tracy Wyant also will take Maya and Kody out to lunch at a Taylorsville restaurant this next month in recognition of their first-place finish.

"We had some awesome entries," Det. Andrew said. "Some of the notes that went along with these cards brought some of us to tears — the gratitude these young people have for us. It's good for us to see the support that is out there and the future generations that are coming up. We were very impressed.

"They are the best of the best," he said.

Kody Nguyen, 5th Grade, Fox Hills Elementary

Maya Alfaro, 5th Grade, Plymouth Elementary

Annual Clean-up Day: Recycle, Reuse and Reduce

By Marsha Mauchley
Taylorsville Green Committee Member

Taylorsville's annual Earth Day Clean-up event is coming up. It's scheduled for Saturday, April 25, from 8 a.m. to noon. The Taylorsville Green Committee organizes this event each year as a way to encourage residents to recycle, reuse and reduce.

Please note the address for the event has changed for this year. It will be held on location at Taylorsville High School's northwest parking lot, 5400 S. Redwood Rd. The committee will have signage at the exit and entrance to make dropping off items easy.

Bring your old paint, Deseret Industry items, expired medications, glass, tree limbs and cardboard (see accompanying advertisement for a full list of items that are accepted, as well as those we ask you not to bring). The committee will have vouchers on hand, as in past years, so that you can take items that we are not accepting to the landfill.

Let's all be great stewards and preserve our Earth!

ANNUAL EARTH DAY COLLECTION

Saturday, April 25th
8AM TO NOON

@TAYLORSVILLE HIGH
NORTHWEST PARKING LOT

Note location change this year

For Taylorsville Residents only

WE WILL BE ACCEPTING:

PLEASE DO NOT BRING

- TIRES AND MATTRESSES (Come to the event and ask for a Dump Voucher instead).
- COMMERCIAL DISPOSAL
- FREON IN APPLIANCES
- AMMUNITION
- MEDICAL WASTE
- LARGE APPLIANCES

You can take motor oil to some auto parts stores or Oil Change Stations all year long. Just verify that they are a recycling center for oil.

- HOUSEHOLD HAZARDOUS WASTE
- GLASS AND PAINT
- ELECTRONIC WASTE
- DOCUMENT SHREDDING
- PRESCRIPTION MEDICINE
- BULK WASTE
- GREEN-YARD WASTE
- RECYCLING
- DONATIONS OF GOOD QUALITY

Please call 801-955-2013 or 801-955-2053 or email eburgess@taylorsvilleut.gov or mmt200541@yahoo.com for more information.

Performing Arts Center is Featured in International Magazine

The new Mid-Valley Performing Arts Center next to City Hall is featured in the international publication Engineering News-Record (ENR).

In the article, Doug Carley, project manager for Jacobsen Construction, says the site couldn't be better from a construction standpoint and architect Basil Harb describes the thoughtful design that blends with the city's own plans to create an adjacent community space. The 70,000-square-foot facility in Taylorsville "seeks to fill a need for professional-level performances

in the area and will become a key element in a larger outdoor-gathering space," according to the article.

ENR is a weekly magazine that is widely regarded as one of the construction industry's most authoritative publications. Construction of the center is on schedule, with completion planned for this fall. The latest work has involved the placement of the white brick along the south side of the building. Find the article about the construction at www.enr.com.

Youth Council Meets with Legislators, Participates in a Podcast

The Taylorsville Youth Council spent the day at the Legislature this past month. They joined Mayor Kristie Overson, Council Members Meredith Harker and Ernest Burgess, and Youth Council Advisor Kris Heineman for the Utah League of Cities and Towns Local Officials Day at the Utah State Capitol.

It is a yearly tradition for the Youth Council to attend the day, which provides an excellent opportunity for the youth to talk to legislators and see first-hand how the process works.

While there, the Youth Council was featured on the League of Cities and Towns' podcast, CitiesWork. They were interviewed by Susan Wood about what they like about serving on the Youth Council, their work and efforts to make a difference in the community. The podcast, which runs about 10 minutes in length, can be found at www.soundcloud.com/ulctcitieswork.

"It was a really fun day for the kids, and it was interesting to see their perspectives," said Mayor Kristie Overson. "Our youth handled themselves very well. They were well-spoken and articulate. The podcast really highlighted the kids and the opportunity for leadership, service and learning about government. They did a wonderful job."

City Council Chair Meredith Harker agreed. "It's so fun to be with those kids," she said. "It's probably overwhelming because they're just learning how government works. So it's a great opportunity."

Taylorsville Bennion Heritage REMEMBRANCES

The following is a short (edited) sketch of the life of Margaret (Maggie) Naismith McLachlan written by Winifred Morse McLachlan. All of the McLachlan clan who are buried in the Taylorsville Cemetery are her posterity.

Maggie was born on Christmas Day in 1847 in Falkirk, Scotland. In 1873, she chose to leave Scotland for Utah where she crossed the plains on the newly built railroad. Maggie settled in what was known as the Salt Lake City 7th Ward area. In 1874, she married as a second wife to William McLachlan, also from Scotland.

The Edmunds Law outlawing plural marriage was enacted in 1882, and as a result, Maggie could no longer live with Carrie, wife No. 1, so she needed a home of her own.

Her husband purchased 40 acres of land "over Jordan" in the Taylorsville Ward in February 1885. In mid-March, William carted Maggie's furniture to the house and arranged it in preparation for her arrival. Maggie did not have a farming background. However, she and her five children learned to milk the cows, churn the butter, raise chickens, gather eggs, plant the garden and harvest grain with the occasional help of a neighbor.

In 1894, the dreaded diphtheria (a gray membrane that grows across the throat and obstructs the ability to breathe) spread from one person to another in their little family. (In Utah, two to five deaths in the same family in a single

The McLachlan Home 1915, Agnes 6, Jack 4, and Scott 2

week from this disease were a common occurrence at this time.) Maggie knew the sorrow of losing Jimmy, Robbie and George before she herself contracted the disease. As a result of her illness and deep sorrow, she recovered slowly but never regained her strength. She struggled to serve in her church's Primary and Mutual programs.

Maggie passed away on May 28, 1905, from kidney disease. Her funeral was conducted in the Taylorsville Ward meetinghouse of The Church of Jesus Christ of Latter-day Saints and was attended by many church dignitaries who knew her well.

Bibliography: Mclachlan, Winifred Morse. "From Babylon to Zion." Master of Arts Thesis, Brigham Young University.

Margaret Naismith McLachlan (Maggie) (1847-1905)

Taylorsville-SLCC Symphony Orchestra Spring Concert

Friday, March 13 7:30 p.m. Bennion Jr. High School

Enjoy a FREE night of music!

TAYLORSVILLE SENIOR CENTER

4743 Plymouth View Drive

Upcoming Events for March:

- **Mardi Gras & Birthday Tuesday Entertainment (Kevin Scott Band):** Tuesday, March 3, 11 a.m. to noon.
- **Mindful Breathing (register):** Wednesday, March 18, 11:00 a.m. to noon. Learn and practice several calming breaths that can be used in a variety of situations to bring calmness, encourage mindfulness, and serve as the basis for meditation. Facilitated by Salt Lake County volunteer instructor and experienced meditator, David Keyes.
- **Good Grief (register):** Wednesday, March 19, 1 to 2:30 p.m. A monthly workshop facilitated by certified grief support specialist Simone Black of Jenkins-Soffe. These creative grief processing classes offer participants a unique and creative way to process the deep emotions resulting from loss/change of any kind.
- **Increase Wellness & Reduce Stress Presentation (register):** Wednesday, March 25, 10 to 11 a.m. Dr. Vicky Westmoreland from the Salt Lake County Division of Behavioral Health Services will give a presentation on mental health and wellness for seniors. Topics will include managing stress, the difference between grief and depression, and recognizing symptoms of common mental health challenges.
- **Nutritional Balance Presentation (register):** Friday, March 27, 1 to 2 p.m.

Please check the Senior Center webpage for the current online newsletter at slco.org/taylorsville-senior-center. You can register for a program at the Taylorsville Senior Center front desk or by calling 385-468-3370.

Learn More, Read More at the Library this Month

The Taylorsville Library, at 4870 S. 2700 West, is hosting several events in March. They include:

Read an eBook Week

Monday, March 2–Saturday, March 7

Show the library an eBook or eAudiobook checked out on your device for a chance to be entered in a drawing for a \$20 Amazon gift card.

Celtic Music by Harvest Home

Monday, March 16, 7 p.m.

Bring your family and friends and enjoy singing duo Annie and Dan Eastmond as they entertain with songs from the British Isles on guitar, fiddle, banjo with stories thrown in for good measure.

Galactic Grown-Ups: Art and Cosmic Connection

Monday, March 23, 7 p.m.

Create intergalactic art as you learn about space with hands-on STEM activities for adults. Interpret NASA data to create fabulous art. You have the option to paint on canvas or on half-sphere domes. This program is designed for adults and older teens. Please register online or by calling the Information Desk at 801-943-4636. In partnership with Clark Planetarium

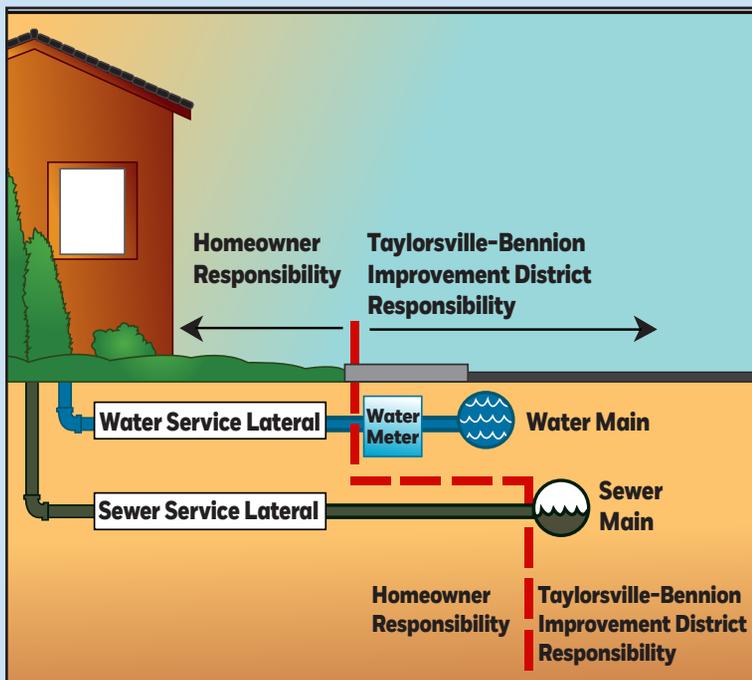

Adult Lecture Series

Utah Women: Trailblazers in the Suffrage Movement

Tuesday, March 31, 7 p.m.

Learn about the Utah women who made U.S. history with Katherine Kitterman, who will focus on women who fought in the movement and left a legacy of women's leadership in Utah and the nation. Kitterman, historical director for Better Days 2020, earned her BA in International Relations and German Studies and a Master of Public Policy degree from Brigham Young University. She is currently a Ph.D. candidate in American History at American University in Washington D.C., where she has brought history to life at the Smithsonian Institution, the Holocaust Memorial Museum and Woodrow Wilson House.

Fixing Service Lines Often Starts with 'Who owns it?'

The question commonly asked when a water service line is leaking or if there is a blockage in a sewer lateral is: "Whose responsibility is it?"

A water service line is a pipe that conveys water from a large water main to the home. The homeowner and the Taylorsville-Bennion Improvement District have responsibilities for portions of the water service line. The district owns and maintains the water service line from the water main, which is normally located in the road or park strip, into the meter box that services the home. The homeowner is responsible for maintaining and repairing the water service line after it leaves the meter box.

A sewer lateral is a pipe that takes waste water away from the home. The homeowner owns, maintains, repairs and replaces the sewer lateral and connection to the sewer main as needed. The district maintains the sewer main that receives the wastewater from the homeowners' sewer lateral.

If you have any questions, please contact Taylorsville-Bennion Improvement District by calling 801-968-9081 or visiting www.tbid.org. Follow them on Facebook and Twitter.

QUESTIONS?

Please contact Taylorsville-Bennion Improvement District by calling 801-968-9081 or visiting www.tbid.org.

You can also follow the district on Facebook and Twitter.

MARCH WFWRD UPDATES

GREEN WASTE PROGRAM

The weekly Green Waste Collection Program will resume beginning Thursday, March 19 for Taylorsville residents. Taylorsville currently has 988 out of the 6,943 districtwide subscribers. This is a subscription program that helps divert green waste from the landfill to be processed into mulch that can be purchased for use from the Salt Lake Valley and Trans-Jordan Landfills. At \$114 per year, a green waste can is less expensive than an additional black refuse can at \$204 per year. For more information on this program and composting, please visit the WFWRD website at: wasatchfrontwaste.org/green-waste.

LANDSCAPE MAINTENANCE

Now is the perfect time of year to trim your trees. City ordinance requires that trees and landscaping that overhang the street pavement need to be trimmed to a minimum height of 13½ feet above the street pavement.

Following these guidelines will help waste trucks navigate through your neighborhood and empty your cans without potential damage to your trees and the trucks. Your help is greatly appreciated.

CURBSIDE GLASS COLLECTIONS

WFWRD is excited to announce that the Curbside Glass Recycling Program is coming to Taylorsville!

Join other residents around the valley who conveniently recycle glass from home. This is subscription service provided by WFWRD and Momentum Recycling. The startup fee is \$45, which pays for the 35-gallon can specifically for glass recycling. The monthly fee of \$8 per month will provide the once-per-month collection by Momentum Recycling. WFWRD does not collect the curbside glass, but coordinates billing and the can delivery. All colors of glass bottles and jars are acceptable.

Initial subscribers will receive their glass recycling can in March. The first monthly curbside glass collection will occur on Tuesday, April 14 (a different day of the week than other curbside collection services). There are also public glass recycling locations throughout the valley, including one at Taylorsville Park. For more information, or to sign up for this service, visit wasatchfrontwaste.org/glass.

Did you know???

Americans use 4,000,000 plastic bottles every hour!
Only one in four are recycled.

Did you know???

Cardboard and paper make up about 73% of the materials in a landfill.
